Relevant Coursework   Rochester Institute of Technology

- **Web and Mobile I & II:** Completed comprehensive coursework in web development on Windows/Macintosh/UNIX platforms, focusing on HTML, CSS, JavaScript, UI/UX, web client/server programming, and dynamic page generation from databases.
- **Software Development and Problem Solving:** Focused on a systematic approach to problem solving, debugging, and optimization in Python.
- **Digital and Critical Curation:** Examined the intersections of information technologies, information science, and cultural information centered in museums, libraries, and archives.
- **Database & Data Modeling:** Covered concepts and theories used in organizing and structuring data, and the use of SQL.
- **New Media Digital:** Worked on projects involving raster and vector image creation, editing, compositing, layout, and visual design. Focused on applying visual design principles and organization methods for digital media. Created effective design solutions for static and interactive online content, emphasizing graphic form, structure, concept development, usability, and multi-device production.
- **Media Narrative:** Explored the properties of non-linear, multi-linear, and interactive forms of narratives to develop critical tools to analyze contemporary media.
- **Senior Capstone:** Individually developed a react based web-app called Well-Informed that allowed users to search medical databases for articles using AI and ask questions about the document.
- **Math:** Statistics, Calculus 1, 2, Multi-variable Calculus, Differential Equations
- **Programming:** HTML, CSS, JavaScript, PHP, SQL, Python
